Hawley on the Corner

to arrive in the city some time tomorrow.

A large crowd gathered at the Lutheran church last evening to listen to the musical which was given by the Sunday school classes of that church. The feature of the evening was the singing of Mrs. C. A. Frank, who rendered several vocal numbers in a most pleasing manner. Mrs. Frank's voice was at its best last evening and her efforts were highly appreciated. Several piano selections by Master Howard Mann and Mr. Gardner completed the program, and a most enjoyable evening's entertainment was brought to a close.

THE DOCTORS WANT DETENTION HOSPITAL

Will Ask That Suitable and Commodious Structure Be Erected by the City.

A well attended meeting of the Bernalillo County Medical association was held in the offices of Dr. John R. Haynes last evening. The meeting was called to order by President W. W. Sparks, and after the minutes of the last meeting were read Dr. P. G. Cornish read a most interesting paper on the subject of "Fracture of the Hip," which was followed by a general discussion and general quiz led by Dr. Osuna. In view of the fact that the present emergency hospital is inadequate for the proper caring of patients afflicted with contagious diseases the following motion was made by Dr. L. G. Rice, which was seconded and passed:

"Motion that the city council be requested by the Bernalillo County Medical society to take steps towards the erection of a detention hospital for contagious diseases within a reasonable distance to the city with the understanding that persons able to pay for such services shall have private rooms. Those unable to pay for same shall be taken care of free of charge by the city."

A committee of five, consisting of the following, was appointed to bring the matter before the council, showing why such a building is necessary for the benefit of the general health of the city: Dr. P. G. Cornish, Dr. H. B. Kaufmann, Dr. W. G. Hope, Dr. S. L. Burton and Dr. L. G. Rice.

Over twenty-five physicians were in attendance last evening and the meeting was one of the most interesting that was ever held by the association. The matter of the erection of a detention hospital in this city for the proper caring of persons afflicted with contagious diseases is a most important one and it is the hopes of the society that their request will be granted by the council and a proper structure be erected.

CENTRAL AVENUE CLOTHIER

AUTOMOBILE OWNERS WANT BETTER ROADS

Will Ask That Highway be Constructed to Santa Fe and Suggest Other Improvements.

At a meeting of the New Mexico Automobile association which was held last night a committee was appointed to confer with Councilman Hanley and other members of the territorial legislature urging the enactment of a law to permit convict labor to build a road between this city and Santa Fe for automobile use as well as for other vehicles.

Another committee will be appointed today by President D. K. B. Sellers for the investigation of the cost of building a private automobile road which will extend from the end of Silver avenue, through University Heights, avoiding the heavy sand which is encountered on the road passing the powder house, along the brow of the hill and finally connecting with the Coyote canyon road. The idea is an excellent one and should the committee succeed, the city will possess one of the most beautiful automobile roads in the southwest.

Another subject which was brought before the meeting last evening was the matter of posting guide boards at points along roads leading through the southern part of the territory, giving directions and number of miles at the next station. In this way the tourist will know the best roads so that traveling in that direction by automobile will be greatly aided and many bad roads avoided.

A resolution was also passed last evening to have 500 copies of the New Mexico Automobile association's constitution and by laws printed and one mailed to each owner of an automobile throughout this territory. An application for membership into the association will be enclosed with these by-laws and dues of \$1 per annum will be charged for membership. This movement in the interests of good roads and the cause is an excellent one.
